THE SENIOR CLASS

OF

VALPARAISO HIGH SCHOOL

VALPARAISO, INDIANA

1934

FOREWORD

THE primary purpose of this book has been to show the friendship and good-will prevalent in the majority of our associations. We think that through pictures, write-ups, the art work, and other features this aim has been accomplished. A new style of write-up, the Walter Winchell type, has been adopted to vary and enliven the pages; it also allows more to be written in a limited space. We hope that our book makes you realize the value of friends and happy associations.

DEDICATION

TO the spirit of those extra curricular activities which are so extensively organized and carried out in our school do we, the Senior Class of 1934, dedicate this, our VALENIAN. The comradeships and good fellowships that have been created through these associations have fostered an attitude of hearty co-operation indispensible to the school. May these organizations continue to function and grow in the name of the school and friendship.
